

Comprehensive Gastrointestinal Services

We offer a full range of gastrointestinal diagnostic, therapeutic and interventional services, all provided in one convenient location. Our services are designed to support accurate diagnosis, timely treatment and continuity of care.

Upper Endoscopy Services

- Upper Endoscopy (EGD)
- Capsule Endoscopy (PillCam™)
- Bravo™ pH Monitoring System
- Small Bowel Enteroscopy
- Percutaneous Endoscopic Gastrostomy (PEG)
- Percutaneous Endoscopic Jejunostomy (PEJ)

Lower Endoscopy Services

- Colonoscopy
- Flexible Sigmoidoscopy

Advanced Diagnostic and Interventional Procedures

- Endoscopic Retrograde Cholangiopancreatography (ERCP)
- Endoscopic Ultrasound (EUS)

These advanced procedures allow our specialists to diagnose and treat conditions with greater precision, often through minimally invasive, outpatient techniques.

Nationally recognized, Pomona Valley Hospital Medical Center is the area's leading provider of comprehensive healthcare with centers of excellence in cancer, heart and vascular, trauma, and women's and children's services. We also have an award-winning emergency department and neighborhood health centers for quality care close to home. Through our expert physicians and advanced technology, we offer the perfect blend of state-of-the-art medical treatment and personalized care.

Scheduling and Appointments

Patients may schedule an appointment through their primary care physician or gastroenterologist.

GASTROINTESTINAL SERVICES

Coordinated, Patient-Centered Gastrointestinal Care

At Pomona Valley Hospital Medical Center, we provide comprehensive gastrointestinal care focused on patient comfort, safety and clinical excellence. We understand that digestive health concerns can affect daily life and overall well-being, and our team is committed to supporting patients through every step of diagnosis and treatment.

“This has been my best experience having a colonoscopy. The facility was clean; the staff were courteous and kept my procedure running on time. They also showed real concern for my comfort and well-being during every step of the process.”

— Patient K.M.

Whether you are visiting for a routine screening or a more complex evaluation, our gastrointestinal team delivers personalized care using advanced technology and evidence-based practices. From your initial consultation through recovery, our goal is to provide coordinated, compassionate care in a setting designed with patients in mind. Care is delivered through a collaborative, multidisciplinary approach, with gastroenterologists working closely with specialists in surgery, oncology, radiology and nutrition to develop treatment plans tailored to each patient's needs.
