

5th Annual Cardiovascular Symposium

INNOVATIONS in Cardiovascular Care

FREE
Online Virtual on
GoTo Meeting

● **Saturday, March 11, 2023 8:00 a.m. - 12:45 p.m.**

Audience: Physicians, Residents, NP/PA's, Nurses, Students, Allied Health Professionals, Rehabilitation and EMS Professionals.

Educational Credits 4.0 CME/CEU available to qualified attendees upon completion of post-test.

To register for this **FREE Conference** Scan the QR Code or online at: www.pvhmc.org/SYMCARDIO

Please remember to include your license number and contact information. Questions related to registering or for more information email: tamera.freehling@pvhmc.org

Course Description:

PVHMC, an American College of Cardiology Certified Chest Pain Center, is excited to offer this half-day symposium virtually via "GoToMeeting". The symposium will open at 7:30 am and promptly start at 8:00 am to allow for attendees to work through technology issues that may arise.

Our accomplished panel of specialists will share their expertise in the management of cardiovascular patients through evidence-based practice guidelines and up-to-date research. This year will encompass the introduction of new treatment modalities, including case studies. If you are a part of the interdisciplinary team that cares for cardiovascular patients, this symposium is for you.

Objectives:

Upon completion of this symposium, participants will be able to:

- 1. Recognize current Electrophysiological** treatment approaches for cardiac dysrhythmias such as Commotio Cordis.
- 2. Examine current evidenced** based research related to use of Targeted Temperature Management post Cardiac arrest.
- 3. Identify modalities** for the use of Radiologic diagnostic imaging, including Cardiac MRI, Cardiac CT and Cardiac nuclear imaging.
- 4. Discuss key objectives** relating to the treatment of Cardiogenic Shock.
- 5. Review current treatment** approaches for the care of Aortic disease
- 6. Identify and mitigate** any bias to treatment with patients from various cultures.

Program

8:00-8:15 - Introduction.

Dr. Guarav Parikh, Medical Director
Cardiac Services

**8:20-8:55 - EP treatment for cardiac
Dysrhythmias Commotio Cordis.**

Dr. Ramanna Merla

**9:00-9:45 - Cardiac Arrest and
Targeted Temperature
Management.**

Dr. Rakesh Sinha

**9:50- 10:25 - Understanding
Cardiac Diagnostic Imaging
(MRI/ CT and Ca ++ scoring/
nuclear testing)**

Dr. Bryan Avery

**10:30-11:05 - Early identification
and treatment modalities for
Cardiogenic Shock.**

Dr. Bhavi Pandya

**11:10-11:45 - Triage and emergent
treatment for Aortic Disease.**

Dr. Eduardo Lares

**11:50-12:25 - Advanced surgical
treatment for aortic disease
(A case presentation).**

Dr. Christine Montesa

**12:30- 12:45 - Questions
and Answers**
