MEDICAL CENTER

EXPERIENCE YOU CAN TRUST

The area's first designated heart and vascular program, the Stead Heart and Vascular Center offers comprehensive care for heart disease and stroke.

We're one of the top-rated, highest volume programs in the region. Our designations as a specialty heart attack receiving center and primary stroke center mean you get the best care possible, fast. Our advanced technology and clinical innovation have earned the respect of our surrounding communities and beyond.

We take pride in providing exceptional care in a warm, comfortable environment that's focused on you, blending powerful technology with compassionate, patient-centered care.

ADVANCED TREATMENTS

We offer seamless and exceptional care with comprehensive expertise.

Heart Services

- Diagnostic services, from stress testing and echocardiograms to angiography, cardiovascular imaging and ultrasound
- Interventional procedures, including angioplasty and stenting
- Electrophysiology to treat irregular heart rhythms
- Targeted temperature management to limit potential brain injury
- Surgery, including coronary bypass surgery, heart valve repair and replacement, minimally invasive cardiac surgery and laser surgery

Stroke and Vascular Services

- Breakthrough stroke treatments
- Vascular diagnosis, interventions and procedures for all vessels in the cardiovascular system, including abdominal aortic aneurysm, carotid disease and peripheral vascular disease
- Specialized vascular ultrasound exams
- Interventional procedures including stenting/angioplasty and the rotoblader procedure for removing plaque

CARDIAC REHABILITATION

We have one of the only nationally certified cardiac rehabilitation programs in the region. Our services include:

- Individualized exercise plans
- Lifestyle modification education
- Personalized counseling
- A medically supervised Wellness Center with cardiac exercise programs
- Caregiver support

EDUCATION AND AWARENESS**Stead Heart for Women: The Power to Make a Difference**

This health education and wellness program empowers women to make lifestyle choices for themselves and their families that can prevent heart disease. Clinicians provide support and information through lectures, cooking demonstrations, workshops, and screenings.

Heart Failure Program

We partner with physicians, insurance companies and other providers to ensure a smooth transition from hospital to home. We also deliver a wide variety of resources and information to help patients manage heart failure and its symptoms so they can enjoy life.
